

A Green Future - Working together with the Liberal Party

FOR IMMEDIATE RELEASE

Sunday, February 7, 2021

We congratulate Iain Rankin in his election as leader of the Liberal Party of Nova Scotia.

In his first remarks as leader, the premier-designate made several bold statements about his vision for a green future, such as eliminating coal-powered electricity, and pledging to make Nova Scotia the first carbon neutral province in the country.

The Green Party of Nova Scotia and its leader Thomas Trappenberg welcome these initiatives, and invite Mr. Rankin to work with us to advance ecologically sustainable practices. We expect that the new premiere will respect all Nova Scotia voices, not just those who supported him, and that he will hold fast to his bold statements, even when the going gets tough.

"I would like to personally invite Iain to work with me on mapping out the most ambitious green energy strategy in the country." says Thomas Trappenberg, leader of the Green Party of Nova Scotia. "We have always believed that our province can be a leader in the clean energy development, and I am willing to work with anyone who shares that ambition."
